

September 11

A National Day of Service

Heard the Bells?

Called to Action?

Your President and Your Bishop want YOU!

Here are three things that will enable you to make a difference, starting September 11!

1. **Help Bring Light to the World** -- Come to St John St James church (149 Roxbury Street, Eliot Square, Boston) at **9 am on Friday, September 11**. We'll change some bulbs there, then head down to Madison Park village to change light bulbs of residents, from expensive (\$s and pollution) incandescent to high-efficiency CFLs. And we'll distribute information on how they can be of service to the nation and the environment, every day!

For more info contact Tom Nutt-Powell at 617-821-6107 or nuttpowell@aol.com

2. **Find Out Your Own Utility Use** -- Get the *Utility Use and Cost* form from MIP&L. It provides a simple, efficient way to assemble information on your gas, electric, oil and water/sewer use. This is how you will know, then change, your use patterns. This Excel form is available at www.mipandl.org. Get the form, and the *Everyday Environmental Stewardship* ("EES") brief that explains how to use it. And even better, the *UU&C* form automatically calculates your **Carbon Footprint**. use it, and encourage your friends.

3. **Get Help to Bring Light to Your Life** -- Have an Energy Audit on your home or condo. They're free! Go to www.MassSave.com to arrange it. You can get an EES on how to prepare for the audit. It's like getting ready to visit the doctor. You want to know, then describe your condition. When the audit is done, **implement the findings!** (And they will probably put in some CFLs for you on the audit day!) You'll save money and reduce your environmental impact. Remember ...

IF WE DON'T, WHO WILL?

For more help on other *Everyday Environmental Stewardship* possibilities, go to the Massachusetts Interfaith Power & Light website (www.mipandl.org).

Click on the *Everyday Stewardship* link at the upper right corner.

Remember, it really isn't rocket science. It's faithful action.

AND go to the LiveCooler website (www.livecooler.org) to learn how to donate to offset ALL your **Carbon Footprint**

Sponsored by MIP&L, The Episcopal Diocese of Massachusetts and LiveCooler.
